

also pointed out the agreement could conflict with the district's plans to implement water re-use in the future.

Shaffer said in the case of non-payment, the water delivery would be difficult to shut off. He advised

the board to reject the request.

The consensus of the board was to refuse the request.

Agreement with Chilcott Ditch Co. updated
The board voted unanimously to approve an operating agreement with the Chilcott Ditch Co. that will cover 2018. The company maintains the canals that transport water between the JV Ranch and storage facilities. The terms of the updated agreement were identical to the previous agreement.

Drivers asked to keep repair teams safe
In his operational report, Assistant District Manager Randy Gillette asked for the cooperation of local drivers in keeping repair teams safe as they do their

work. Gillette mentioned that whenever repairs must be done to infrastructure under streets, the work is planned very carefully to minimize the impact on traffic, but added that some drivers were not obeying speed limits and the signals of the flaggers and were endangering work crews. Gillette hoped the community would slow down to keep district employees safe.

Other operational reports mentioned:

- Ozone purifying equipment has been rented for a project to improve the taste and odor of district water.
- Three new housing developments are coming to the area.

The next meeting is scheduled for July 13 at 1 p.m. Meetings are usually held at the district office at 1845 Woodmoor Drive on the second Thursday of each month at 1 p.m. See www.woodmoorwater.com or call 488-2525 to verify meeting times.
