

for the Wells Fargo Public Trust. The three accounts totaled \$1.661 million in May. June balances were \$3,951 for PNB, \$533,177 for the PNB Colorado Peak Fund, and \$1.108 million for the Wells Fargo Public Trust. The three accounts totaled \$1.645 million for

June, leaving a difference of minus \$16,489 from May to June.

Chiefs' reports

Due to Ridings' absence, the June and July call volume statistics will be provided at the August board meeting.

The Northern El Paso County Coalition of Community Associations Inc. (NEPCO) honored DWFPD with a certificate of honorary associate membership on July 15. Burns referenced the presentation that he and Fire Chief Chris Truty and Fire Marshal/Battalion Chief Jamey Bumgarner of Tri-Lakes Monument Fire Protection District (TLMFPD) conducted for NEPCO in March. Burns expressed appreciation for NEPCO's information regarding land use and infrastructure projects that will be helpful in preparing for future fire incidents and other emergencies. A local homeowners' association invited Burns to educate an Amyotrophic Lateral Sclerosis (ALS) focus group

on public safety, fire prevention, and disaster evacuation.

The board adjourned at 7:49 p.m.

The next Donald Wescott Fire Protection District Board of Directors meeting is scheduled for 7 p.m. on Aug. 15 at Station 1, 15415 Gleneagle Drive. Please call (719) 488-8680, a nonemergency number, to confirm, as recent meetings have had to be rescheduled. You may visit the district's website at www.wescottfire.org. The district is also on Facebook and Twitter.

Jennifer Kaylor can be reached at jenniferkaylor@ocn.me.

TLMFPD (Cont. from page 1)

Over the past six months, the district's staff has been busily working on documenting the needs of the organization and justifying the need for an increased mill levy. Those needs included the following:

- Maintaining timely emergency services and 911 response times
- Attracting and retaining experienced first responders, and mitigating costly turnover rates
- Replacing outdated emergency equipment, such as air packs, jaws of life, and heart monitors
- Replacing obsolete, front-line communications equipment and outdated, unreliable emergency response vehicles
- Improving energy efficiency and health/life
