

from the Village Center Metropolitan District to the Town of Monument.

Intergovernmental agreement

The board unanimously approved a resolution approving an intergovernmental agreement between the Town of Monument and the Monument Sanitation District regarding the construction of sidewalks and curbing in downtown Monument, the granting of rights by the district, and the mutual creation of a downtown public gathering area in front of the district building.

The Town of Monument is constructing sidewalks and curbing downtown using grant funding and matching town funds. As a result of the project, some existing downtown parking spaces have been re-configured.

The intergovernmental agreement with the district had previously been approved by the district board. The agreement resolved issues of parking adjacent to the district building at 130 Second St. and the creation of the gathering space in front of the district building.

The district provided a 2.55-foot access easement to the town adjacent to the west side of its building for construction of a 5-foot-wide town sidewalk on the east side of Washington Street. The district will now retain

its perpendicular head-in parking places on Washington Street. The seven angled parking spaces on Second Street in front of the district building will be replaced by four parallel parking places. All but one of the parking places on the lot of the former town hall at 166 Second St. will be available for parking for the Willow Tree Café at 140 Second St., the district, and the Second Street Salon at 106 Second St.

The town's first phase of the downtown sidewalks project will go to bid this spring, with con-

struction beginning soon after the contract is awarded.

Part of Santa Fe Trail to be deeded to town

The town staff is seeking approval for the transfer of ownership of a portion of the Santa Fe Trail corridor between Second and Third Streets from the El Paso County Board of County Commissioners. If the commissioners deed this two-acre property between Second and Third Streets, the town would be able to make improvements within the rest of the trail corridor to

enhance the area for visitors, residents, and businesses. The town plans to expand the trailhead parking area adjacent to Third Street to the south. Also under consideration is the addition of a "par course" along this section of the trail for use by hikers and joggers.

The first step in the land

transfer was approval of a proposed quit claim deed from the county to the town for this area. The Monument Board of Trustees unanimously approved the proposed quit claim deed. The next step is commissioners' approval of the transfer of ownership and this proposed quit claim deed.

Serving the Tri-Lakes area for over 20 years.
